STANDARD FORM 30 (Rev. 10-83)
Prescribed by GSA
FAR (48 CFR) 53.243

1. The purpose of this modification is to incorporate the Tablet PC platform under the Delivery Order.
2. The following shall be incorporated as Item 33 in Part III, Section B of the Delivery Order.

TABLET PC PLATFORM – The Desktop Services are supplemented to add the Tablet PC Platform as an optional service for the GP3 PC Seat.

Service Description: Provides the services to ensure appropriate computer platform hardware (e.g., processor, memory, disk, network interface card) and system software (e.g., operating system, network operating system) is available to the specified Seat Type. Services include requirements analysis, hardware and system software platform acquisition, testing, verification, and installation in accordance with the specific technology refreshment cycles.

The Tablet PC laptop is intended to fulfill the majority of NASA's requirements for wireless portable computing for those users desiring a unit that will allow taking notes using natural handwriting with a stylus or digital pen on a touch screen. The unit is intended to function as the user's primary personal computer as well as a note-taking device. At a minimum, the unit shall internally include: processor, display that rotates 180 degrees and can be folded down over the keyboard, full function keyboard, modem, wired Ethernet and wireless Ethernet connections, hard disk, connections for external peripherals, weigh no more than 4.5 pounds, and include those components that are typically included in commercially available tablet pc laptops. Included as part of the seat, the contractor shall provide the necessary docking station/peripherals required to provide the full functionality of a GP3 seat.

Each platform shall meet or exceed the performance measure specified in Master Contract Attachment N, ODIN Performance Specifications.

Each platform shall meet or exceed the minimum configuration recommended by the software manufacturer for the software installed with each seat. All components of the standard software load shall be capable of correct simultaneous execution and mutual interaction on each seat's platform.

3. Delivery Order Item 16, Docking Station For GP3 Seat, in Part III, Section B is revised to incorporate an optional service level for the Tablet PC platform that requires no monitor. Item 16 of the Delivery Order is deleted in its entirety and replaced by the following:

DOCKING STATION FOR GP3 SEAT – The Contractor shall provide an optional docking station for the GP3 Seat. This service level is added to the service levels identified in Desktop Service Level Definitions of the Master Contract Section E.3.1.

- a. The docking station service level is defined as follows:

Docking Station Services

Service Description: Provides all services required to provide Docking Station service and network (LAN) access from a docking station. The contractor shall meet or exceed the requirements specified below. Services include:

- (1) Monitor (except for the Tablet PC platform), keyboard, mouse and speakers
- (2) Network interface card
- (3) Parallel connection capability, serial connection capability, USB connection, and monitor connection capability
- (4) Power supply and power connection capability, if available

<u>Service Levels</u>	<u>Typical Service Characteristic</u>
None	No Docking Station Service provided.
Basic (other than Tablet PC platform)	Docking Station Service provided
Basic (Tablet PC platform)	Docking Station Service provided without monitor (This applies to the Tablet PC Platform only.)

4. The minimum performance level for the Tablet PC platform of the GP3 seat shall meet or exceed 75 percent. The table set forth in Delivery Order Part III, Section B, Item 16, is revised to incorporate the Tablet PC minimum performance. Item 16 of the Delivery Order is deleted in its entirety and replaced by the following:

Minimum Performance Levels – The Contractor shall meet or exceed the following delivery order minimum performance levels for each platform.

The following table represents the minimum performance levels that shall be met or exceeded for each platform for each quarterly technology refreshment period during the performance of the delivery order.
